

FACTS & FEATURES

PEACE OF MIND

DAVID WEEKLEY'S ENERGYSAVER HOME PROGRAM

What exactly is a David Weekley EnergySaver home? It's a home that is friendlier to you, to your environment and to your pocketbook. Reduced energy consumption actually makes a David Weekley EnergySaver Home less expensive to own. In fact, our homes can save heating and energy usage over a similar home built to 2006 building code standards. It's what we call a "win-win-win." Invest your housing dollars more wisely. Help the environment. Live more comfortably. All of which can help make your David Weekley EnergySaver Home easier to resell - because from now on, any home that isn't green may be obsolete.

- **Environments for Living Program** - Diamond Level
- High performance **Lennox** heating and cooling maintains your home's comfort with lower operating costs
 - **14 SEER** air conditioning with chlorine-free refrigerant to reduce environmental impact
 - **93%+ efficient** gas furnace means more savings during the heating season
 - **Variable Speed** with matched components for optimal performance
- Programmable Honeywell Thermostats including high-definition Prestige full-color display with humidity control on main floor
- All duct work sealed with a hard cast mastic to reduce leaks, then tested with room pressure balancing to even out temperatures from room-to-room
- **Honeywell Fresh Air** system to bring in filtered, outside air for a healthier home
- Third Party performance verification using the **Home Energy Rating System (HERS)** Index for easy comparison against other homes
- Cooking surfaces vented directly outside
- Low E2 glass vinyl windows help insulate your home and reduce maintenance costs
- **Advanced Framing** - a collection of homebuilding techniques using 2x6 exterior wall framing designed to reduce both construction waste and lumber required for your home; thereby creating a more energy efficient framing layout and deeper exterior wall space allowing for up to **50% thicker insulation.**
- Improved Thermal Envelope System (**R-19** wall system and **R-30** blown-in insulation in the attic)
- Caulk and Seal program to minimize air leakage and further maximize energy efficiency
- Uponor PEX corrosion-resistant plumbing featuring AquaSAFE Fire Sprinkler System with concealed heads for added safety and peace of mind
 - Meets National Fire Protection Association Standard NFPA13D
 - Class B system- *check with your homeowners insurance provider for available discounts*
- Water intrusion barrier system for tub and shower walls
- Carbon monoxide and smoke detectors with battery back-up

- Combustion appliances sealed or power vented to avoid build up of carbon monoxide
- Low Volatile Organic Compound Paints are utilized to help maintain better indoor air quality
- Radiant barrier roof decking- designed to lower home's attic temperature.
- High-efficiency **tankless** gas water heater for virtually endless hot water
