PEACE OF MIND

EnergySaver PROGRAM

- Environments for Living Certified Platinum Energy-Efficient Homes. This nationally recognized program includes 3rd party inspections, testing and certification on the home's energy efficiency qualifications specified to meet EFL's standards
- Ask about EFL's Guaranteed Energy Usage and how it will reduce your monthly energy bills
- High efficiency 14.3 SEER2 cooling system and heat pump with fresh air intake
- A zoned system for the Owner's Retreat with its own thermostat
- Systems are individually designed by a 3rd party Engineer
- The Mechanical Engineer performs the following inspections to ensure optimal operation of the HVAC system:
  - Ductwork Inspection - Ensures HVAC ducts are installed as designed for maximum performance
  - Insulation Inspection - Insulation installed per the highest standards
  - Duct Blaster Test - Validates minimum duct leakage and improves energy efficiency
  - Blower Door Test - Pressurizes entire home to test how tight the home is sealed
  - Air Flow Test - Measures vent air flow in each room to ensure comfort and consistency for the whole home
  - Total System Inspection - A final, complete inspection of the whole system to deliver the best HVAC operation
- Programmable thermostats
- Energy-efficient windows with double pane, Low E glass and vinyl frames
- Poly sealant at base plates, doors and windows to prevent air infiltration
- R-19 in exterior 2x6 wall system
- R-38 batt/blown fiberglass insulation
- Water-resistant, cement tile backer board with anti-fracture membranes, which help to eliminate transmission of moisture through seams into the wall cavity
- Kitchen vent hood vented to exterior of home
- Exterior mounted tankless natural gas water heater
- Natural gas community
