DAVID WEEKLEY'S ENERGYSAVER PROGRAM

- All David Weekley Homes are tested by independent third-party engineering consultants that specialize in efficiency and green building
- Home is air pressure tested and balanced from room to room for optimum comfort, even with the doors closed
- Fresh air ventilation is part of **David Weekley Energysaver™ Home**, to help eliminate the pollutants from inside the home and help you breathe cleaner air
- Emphasis on indoor comfort means the home is designed for lower humidity and the temperature does not vary excessively from room to room
- David Weekley homes feature Advanced Framing Techniques for improved insulation opportunities to allow for greater energy efficiency.

"David Weekley EnergySaver Home" is a trademark of Weekley Homes, L.P., which describes certain features and criteria designated to make homes more economically sustainable over the long term and reduce energy consumption and the resulting environmental impact in participating communities. It does not infer sponsorship, approval, or affiliation with any other program or green building certification other than those specifically stated in the product features, warranty or contract.
